Demo slide

Demo slide

This standalone deck exercises `presentation: true` without using a real talk or course presentation.

- PDF-backed browser viewer
- keyboard, click/tap, swipe, and fullscreen navigation
- shared math and theorem helpers

A mathematical slide

A mathematical slide

$$1 + 2 + ... + n = \frac{n(n+1)}{2}$$

Theorem

The sum of the first n positive integers is $\frac{n(n+1)}{2}$.

Final slide
